Dear Sir/Madam,

Highly skilled AutoCAD / Architectural Designer with over 15 years of experience in creating detailed technical drawings for architectural, glass, survey and structural engineering projects. Proven ability to translate complex concepts into precise visual representations, with a keen eye for detail and accuracy. Passionate about utilizing my drafting skills to contribute to innovative design solutions. Seeking to leverage my expertise in Autocad software and project management to enhance the design process in a dynamic team.

Further I have extensive experience in streamlining drafting processes, managing teams, and collaborating with architects and civil engineers. Proven track record of increasing project completion speed, reducing drafting errors, and improving client approval rates through detailed and accurate visual representation. Committed to enhancing productivity, reducing revision time, and ensuring high-quality drafts that meet project specifications and standards.

Known for my meticulous attention to detail and ability to produce high-quality drawings that meet project specifications and deadlines. In the field of Glass industry broadened my knowledge and enhanced my skills in creating and modifying 2D and 3D drawings using the latest technologies as well as manual drafting. I am eager to learn and further my proficiencies by constantly improving my work and accepting all kinds of assignments handed out to me. With this said, I am confident that I can measure up to the expectations of the company.

Now I am looking for a suitable position with an ambitious and high-profile company and I look forward to the opportunity to discuss with you my experiences and how my unique skill set will benefit with your organization. Thank you for your time and consideration. I look forward to hearing from you.

Your faithfully,  
Nidushan De Alwis

WORKING STRENGTHS

- Proficient in AutoCAD & Revit software.
- Ability to manage and lead a team.
- Strong collaboration skills.
- Ability to streamline and improve drafting processes.
- Proficient in implementing new systems for improved clarity.
- Strong project management skills.
- Understanding of design elements, & coming up with unique ideas.
- Analysed rough sketches and interpreted specifications to develop 2D and 3D drafts.
- Ability to work within deadlines and budget constraints.
- Good knowledge of design stanards, and calculation methods.
- Able to work within brand and design guidelines.

TECHNICAL PROFICIENCY

- Confidence and Patience
  - Imagination and Creativity
  - Time Management
  - Adaptability and Research
  - Computer Literacy
  - Attention to Detail
- Clear Communication
  - Problem-solving
  - Team Player
  - Presentation Skills
  - Positive Thinking
  - Up to Date
